CD205, p.642. Mrs. Connell, Bob Castorr, Johnny Martin.

This report is so brief it requires suspicion. It is deceptive and makes one wonder about the later FBI and SS reports (O in NO).

She knew Mrs. Castorr well, Bob slightly. They suspect her. Bob thinks she may be CIA. She appears to have remarried and not now to be living in Dallas. She could not possibly have failed to tell the FBI of the Castorr connection with Cuban Catholic Relief and Father Machann, and if she failed to mention Odio, that is simply fantastic and requires additional suspicion of her. There is ever so much she could have reported and assuredly should have, of which I know.

The other reporting of this pair of agents, as I recall, seems to leave much to be desired!

Johnny Martin is an unusually common name in this story. This one was the gun merchant who also had a laundromat. He also knew Sylvia.

Have you any idea where the "limited information" she had earlier furnished might be? Earlier than 11/30/63 means the FBI had to have known of Sylvia and her story earlier than the first report on it I have and would seem to indicate they were reluctant to see her and get the story from her.

Mrs. Connell is not Catholic. She had a rather close relationship with Odio.
